Before submitting, please change the format to PDF.

Table of Contents

<i>Roles and Responsibilities</i>	3
<i>Project Links</i>	3
<i>1. Introduction</i>	4
1.1. Application Features	4
1.2. Functional and Non-Functional Requirements	4
1.3. Paper-based prototype (diagrams, sketches, 2-4 interfaces)	4
1.4. Bringing Requirements to Life (personas and scenarios)	4
1.5. Storyboards.....	4
1.6. Mock Evaluations (based on usability goals)	4
1.7. User Feedback (data gathering technique)	4
1.8. Feedback and Updates (as needed).....	4
<i>2. Methods and Technology</i>	5
Platform, architecture, technology, coding details	5
Implementation and Testing	5
<i>3. Limitations</i>	6
<i>References</i>	7
<i>Appendix</i>	8

You can also add list of figures and tables on separate pages.

Roles and Responsibilities

<i>xyz</i>	<i>Project lead</i>	<i>Responsible for overall management of project</i>
...	...	...

Project Links

GitHub repository (source code): _____

YouTube video presentation: _____

Please ensure that above links can be viewed by module leader (have more than a few group members test it before you submit this report).

(Word count 2000 begins)

1. Introduction

1.1. Application Features

1.2. Functional and Non-Functional Requirements

1.3. Paper-based prototype (diagrams, sketches, 2-4 interfaces)

1.4. Bringing Requirements to Life (personas and scenarios)

1.5. Storyboards

1.6. Mock Evaluations (based on usability goals)

1.7. User Feedback (data gathering technique)

1.8. Feedback and Updates (as needed)

2. Methods and Technology

Platform, architecture, technology, coding details

Implementation and Testing

3. Limitations

Compare your project against the criteria set out in Appendix – A of coursework and comment on % completion. Be fair and clear in completing this section.

Objective	% completion	Comments
<i>Customer can provide the size, shape and colour scheme for the room.</i>		
<i>Customer can create a new design based on the room size, shape and colour scheme.</i>		
<i>Customer can visualise the design in 2D.</i>		
<i>Customer can visualise the design in 3D.</i>		
<i>Customer can scale the design to best fit the room.</i>		
<i>Customer can add shade to the design as a whole or selected parts.</i>		
<i>Customer can change the colour of the design as a whole or selected parts.</i>		
<i>Customer can edit/ delete the design.</i>		
<i>Customer can save the design.</i>		

(Word count 2000 ends)

References

Please use Harvard referencing style.

Appendix

Any other information you want to include in the report.
